

## Sage 50 Accounts 2008

### So what's New??

#### Improved VAT return and reconciliation management

- Convenience of online submissions and payments
- New manual adjustments making VAT return adjustments simple
- VAT ledger - prepare, generate and reconcile your VAT returns in one place

#### Improved tracking and traceability with the new VAT return identifier

- New EC sales list screen helps businesses who are trading within the EU
- New reverse charge Tax Code and reports for carousel Fraud.

#### Improved customer invoices and sales orders, including electronically

- Extra discount - apply a one off discount to an invoice or order
- Deposits - easily allocate deposits received or already allocated
- Speed up your invoices and orders by managing your invoices and orders electronically - send and receive them via email directly from your Sage 50 Accounts software.

#### Improved online banking facilities

- Take card payments over the phone quickly and securely (*with an additional charge, Sage Payment Solutions, powered by Protx, updates your accounts automatically when you take card payments*).
- Make payments online to save time, reduce costs and improve relations with your suppliers (*no additional charge for this*).

#### Improved Management Reporting

- New Profit and Loss, Balance sheet, and Budget reports that include month by month, quarter by quarter or year on year
- Drill down to see the details behind top level reports

### Which Version Of Sage 50 2008 Do I Need?

There are three versions of Sage 50 Accounts to choose from depending on your different business needs:

#### **Sage 50 Accounts (up to two users) Previously named Sage Accountant**

Sage 50 Accounts has all the standard features you'll need to manage your customers and suppliers.

#### **Sage 50 Accounts Plus (up to two users) Previously named Accountant Plus**

Sage 50 Accounts Plus has all the features of Sage 50 Accounts, together with all the tools you need to keep track of your materials and manage your stock.

#### **Sage 50 Accounts Professional (up to ten users) previously Named Financial Controller**

Sage 50 Accounts Professional gives you all the features of Sage 50 Accounts Plus, and adds sales and purchase order processing, stock control, project management and foreign trading tools.
